Needham • Newton • Wellesley • Weston

## **Are you worried about your young child's development? We're here for you.**

At Riverside Early Intervention, we support families with infants and toddlers from birth until their third birthday. Families are the most important people in their child's development and understand their child better than anyone else. That's why we partner with families to identify the child's strengths and challenges. Together, we develop a plan to address the child's needs, building on family culture, routines, and preferences.

Our dedicated and experienced staff includes developmental specialists, social workers, mental health professionals, physical therapists, occupational therapists, speech and language pathologists, and other specialists.

We offer:

**Developmental assessments**

**Individualized visits**

- In your home, neighborhood, or in our offices
- With your child's caregiver or childcare provider

**Groups**

- Caregiver/child playgroups
- Parent/guardian support groups
- Opportunities for non-eligible children to enroll in program groups
